Comments:	Feedback provided to the compl, who advised that she witnessed the dog yesterday and saw that the dog is in an emaciated condition and the dog looks worse now than what it originally was, she says she can literally see the dogs entire skeletal bones through the skin, she advised that she didnt take any pictures while at the property as she didnt want the owner becoming suspicious. she also advised that her son informed her that the dog is not being fed a proeprty diet and that the dog only gets vegetables which is not sufficient for a dog
