Type:	RETURN TO OWNER - STERILISATION / VETERINARY TREATMENT
Follow-Up Date:	2026-07-20
Comments:	requested the dog be returned home. Andisile Booii advised that the dog has not yet been sterilized. Reason for non-sterilization: According to the vet, the dog sustained injuries prior to the scheduled procedure. As a result, the veterinarian was unable to sterilize the dog at that time and instructed that the dog must be returned to the vet within two weeks for sterilization once medically fit
