Comments:	Upon arrival at the shop, I requested to speak with Keith and I was told that he retired. I asked for the person that is looking after the cats and I was directed to Waheed 0842648520, he told me that he is taking full responsibility of the fetal cats and he feeds them and gives them water. I only saw 2 cats and ran away on my approach. They had water under the boards. He told me that there are 3 cats and they are all sterilised. I came back with the traps as I cannot trap wanted cats.
