

28 September 2026

Dear Captain Olivier,

We refer to your response dated 23 September 2026, as well as the attached Warning Notices, being Notices 15184 to 15187, issued on 16 September 2026.

1. The Cape of Good Hope Society for the Prevention of Cruelty to Animals (hereinafter the 'SPCA') records that the veterinary examinations stipulated in the aforementioned Warning Notices remain outstanding. The requirement to have the animals examined by a registered veterinarian is not optional and is not subject to negotiation. The prescribed seven-day period afforded for compliance has already expired.
2. Notwithstanding the above, and without waiving any of our rights or remedies, the SPCA is prepared to afford you a final extension until close of business on Wednesday, 30 September 2026, within which to ensure full and proper compliance with the Warning Notices.
3. The proposed veterinary appointments scheduled for 8 October 2026 fall outside this extended compliance period and are accordingly unacceptable. You are required to make the necessary arrangements to have the outstanding examinations conducted on or before 30 September 2026.
4. Furthermore, all veterinary reports relating to examinations that have already been conducted must be submitted to the SPCA immediately. The reports arising from the remaining examinations must be furnished to the SPCA no later than close of business on 30 September 2026.
5. For the avoidance of doubt, this correspondence constitutes a final opportunity to remedy the outstanding non-compliance. Should full compliance, together with the required veterinary reports, not be received by the stipulated deadline, the SPCA will consider and pursue such further legal and/or enforcement action as may be appropriate, without further notice to you.
6. Your cooperation in this regard is expected and the SPCA trusts that the matter will be attended to within the prescribed timeframe.

Yours Faithfully,

Inspectors Rowan Davids and Elani Steenkamp
Cape of Good Hope SPCA
Inspectorate
