Comments:	I am writing to request your urgent assistance regarding three cats currently living at my home. Unfortunately, some people in the area have been associating these cats with witchcraft and have been assaulting them. There have also been several attempts to poison them, and I am deeply concerned for their safety and wellbeing. As I fear that the cats are at serious risk of harm if they remain in the area, I would like to request that the SPCA assist with collecting them and, if possible, placing them in a safe environment where they can be properly cared for. Please let me know what information you require from me and whether arrangements can be made for their collection. Thank you for your assistance and for the important work you do in protecting animals.
