We adopted a stray cat that just came to our house a few months ago . The cat gave birth to four kittens , two males two females .they are a month old now, we can't afford all the cats, I would like to know if you can collect the kittens and find a suitable home for them ,

We also wanted to know what does it take to have the mother spade

Before proceeding please note that once you surrender an animal you as the owner will be signing your rights over for that animal to the SPCA in which once we collect the animal doesn't ever come back and there is no cooling off period in which you can come back to claim the animal or say that you want the dog back as this is a permanent decision that you will be making to surrender.

Please confirm if you are happy to proceed?

Kindly provide your address where the collection will take place, we can only collect from the 20th on as we are fully booked for the next 2 weeks.

In order to sterilise the mother cat you will need to make a booking with our hospital department, You are welcome to call out hospital at 0217004145 during office hours or email [Hospital@spca-t.co.za](mailto:Hospital@spca-t.co.za) for a quotation
