General Report Comments: I have been to this property before for a complaint regarding the dog sky. She had skin problem and sone scars due to jumping through a window. The dog was treated and the scars healed. The owner is treating the skin condition. Currently dog sky has what i suspect could be a mumry tumor and also her one teet is lacerated due to new puppies biting her teets. I gave the owner a notice to bring sky in for a checkup and treatment for her skin and the lacerations and pos mumry tumor. I also told the owner to clean the living enviroment. Foid water and shelter provided.
